The TRU-WELD ferrule (ARC SHIELD) is specially designed to withstand heat shock as well as reasonably high temperatures without melting or breaking. The TRU-WELD ferrule complements the uniform flux load to affect a top quality weld.

Special ferrules are also available upon request.

1) The “F” ferrule is also available in the low profile versions.

2) The “A” ferrule pictured above is the combination inside-outside angle ferrule. The inside-only and outside-only ferrules are also standard stock items.
